Clean & Brite

Timber Pro Clean & Brite is a specially formulated professional strength cleaner designed for all exterior wood surfaces. Clean & Brite will remove tannin stains, dirt, mild greying, and environmental dirt from new wood. After cleaning with Clean & Brite the wood surface is ready for finishing.

Clean & Brite is also an excellent cleaner to keep your exterior coatings looking like the day they were applied and is safe to use for exterior finishes in good condition.

Clean & Brite can also be used to clean up your exterior concrete, stone work and masonry around the house from any dirt or mold build-up.

Features:

Professional cleaning strength:

Cleans wood surfaces from tannin stains, mould, mildew and even mild greying.

Versatile:

Can be used on both exterior wood as well as concrete, stone and masonry.

Safe for Existing Finishes:

Can be used to clean existing finishes in good condition to remove dirt, mould and environmental pollution.

Easy to Use:

Clean & Brite can be applied easily with a low pressure garden pump sprayer and easily rinsed off with a garden hose after its activation period.

Cleans and Brightens:

- All exterior wood, siding, logs, decks and fences
- All exterior concrete, stone & masonry surfaces
