

Naturally Tough

Timber Pro™ UV

Deck & Fence Formula

Timber Pro Deck & Fence Formula is a unique waterborne natural oil resin formula designed to stand up to the harshest environments.

Timber Pro Deck & Fence Formula uses a unique combination of sunscreens and pigments that protect the wood surface from the sun's ultraviolet rays. Deck & Fence Formula provides a durable breathable finish to beautify and protect your deck from day to day use and wear, as well as from the elements.

Features:

Excellent Penetration: A unique formula that allows excellent penetration, deep into wood decks and fences.

Deck & Fence Formula Breathes:

This is especially important where there's a build-up of water.

Excellent UV protection:

Unique UV absorbers and pigments protect wood from the sun.

Unseasoned wood — no problem:

Deck & Fence Formula can penetrate wood with up to 21% moisture content.

Easy to apply: Deck & Fence formula can easily be applied by spray, brush or paint pad.

Easy to maintain: Cleans up quickly for the application of another coat for continued protection.

Protects & Beautifies:

- Wood Decks
- Fences
