

Naturally Tough

Timber Pro™ UV

Roof Treatment

Timber Pro Roof Treatment is a specially formulated professional grade natural oil woodfinish for use on cedar roof shakes and shingles.

Timber Pro Roof Treatment provides superior durability and performance for the harsh environment of a roof. The waterborne formula both accentuates and protects the beauty of a wood roof all in a low VOC formula.

Features:

Excellent Penetration:

Timber Pro Roof Treatment allows for excellent penetration and adhesion to wood shakes and shingles.

Excellent UV Protection:

Timber Pro Roof Treatment Formula Unique UV absorbers protect the wood from the sun's UV rays.

Breathable Finish:

Timber Pro Roof Treatment will not trap moisture in the wood, reducing rot, checking and cracking.

Easy to apply:

Timber Pro Roof Treatment can be easily applied by spray or brush.

Low VOC formula:

The low VOC formula of Timber Pro Roof Treatment is better for the environment.

Easy Clean Up: Cleans up with soap and water

Protects & Beautifies:

- Shake & Shingle Roofs
